PROFILE INFO

I have been self-studying Front-end development for more than a year (tech skills: HTML, CSS, Javascript, React JS, Git, Npm, Github). Now I`m engaged in self-development of pet projects, one of which is written in React, this is my portfolio web-site. Maybe not everything is as perfect as I would like, but I am working on it further and will work to improve my skills, learn new things, and most importantly I want to put it into practice so that my work brings results in the improvement of the IT industry in general. I aspire to become a full-stack developer)

WORK EXPERIENCE

State executive service of Ukraine   **2019 - Present**

The State Executive Service is the department of the Ministry of Justice of Ukraine. It is responsible for executing the decisions of courts, courts of arbitration, and other judicial bodies in accordance with the current legislation.
